NEW WATER CURE

ESTABLISHMENT

.....AT.....

GORHAM, MAINE.

THE subscriber has taken that beautiful and [illegible] eligible situation, in Gorham, Maine, known as the WOODBURY ESTATE, which he has fitted up for a

Water Cure Establishment,

And which will be open for the reception of patients on the first day of May instant.

The House is large, elegant, and commodious,—the rooms spacious and airy and the whole is furnished in such a manner as to gratify the taste, while it secures the comfort and promotes the health of the inmates.

The location of this establishment is such that it leaves nothing in that respect to be desired. It is one of the most delightful residences in New England, and combines the advantages of the rural pleasures and quiet of the country with near proximity to the city. It is one mile from Gorham village, and only eight miles from the city of Portland; hence it is easily accessible from all parts of the country.

The water is pure and abundant.—the most convenient arrangements for its application will be adopted, and no pains will be spared to render the treatment efficient.

The Proprietor, being a regularly educated physician, and having had much experience in other modes of practice, as well as in Hydropathy, and having, moreover, visited the most celebrated Hydropathic Institutions in England, France, Germany and Belgium, for the purpose of obtaining a thorough knowledge of the system, confidently hopes to give satisfaction to all who may place themselves under his care.

Genteel Horses and Carriages, good saddle Horses, and various sources of innocent and healthful amusement, will be provided.

John S. Sayward.—Editor

SATURDAY, MAY 26, 1849.

## Matters at Washington.

It is convenient occasionally to catch the glimpses from Washington emitted through the correspondence there of the various newspapers whose income enables them to incur the maintenance of such correspondence

In reference to the diplomatic appointments it is generally believed that during the next month there will be quite a general change made in the ambassadors, charges and consuls, and that every consentaneous worth having has been given out. The appointees are not yet named in public, nor commissioned, but every one of them is designated Among them is the Consul to Liverpool, for Rio Janeiro, &c

The foreign policy determined upon by the administration is such as will receive the hearty approbation of the people of all parties It will be one of perfect independence and high toned neutrality The principle of the non interference in the affairs of other nations, unless the rights or interests of the United States are concerned, will be strictly followed, and will in no case be deviated from The nations of Europe may contend as they please among themselves, but the United States will take sides with none nor will any European power, engaged in hostility with another, be permitted to receive any aid or assistance on any pretence whatever, from the United States

In reference to local offices at Washington the correspondent of the New York Commercial says that the impression is that most if not all of the heads of bureaus will be displaced — One sufficient reason which is, or may be, assigned for this is, that although no charges are made against the competency of the present incumbents, experience demonstrates that rotation in office tends to heighten the zeal of officers and operates as a safeguard to the public interest I remember hearing it deliberately charged by Mr Wise, in the House of Representatives, that but for the supineness of the first auditor of the Treasury, Mr Miller, the defalcations of Samuel Swartwout and Jesse Hoyt could not have taken place, and thereupon President Tyler removed Mr Miller and appointed Tully R Wise, a relative of the member! And now it is alleged that the fourth auditor of the Treasury, the supervisor of the navy accounts, attended to his duties as diligently as he should have done, the defalcation of the navy agent at this place could never have occurred, or could not have reached any thing like the amount which it is now believed to involve

But whatever are the reasons for such a course, it is the almost universal opinion that about the first of June several auditors, at least one comptroller, the commissioner of Indian affairs and of the land office, and some few other officers of about the same grad , will be invited to resign, and that they will accept the invitation with the grace which men of the world know how to manifest on even the most unpleasant occasions

The correspondent of the New York Mirror, thus speaks of a worthy public officer whom the locco papers are tradueing and hope to ruin, but all, we trust in vain —

Fitz Henry Warren, the capable and hard working Second Assistant Postmaster General, left here on Thursday on a visit to his family in Springfield, Massachusetts He will be absent a week, and will not have the pleasure of reading during that interval the daily abuse which the Union pours out upon his head He keeps his head pretty well up in spite of the Union, and makes a friend of every man that has occasion to see him on business The Postmaster General is the dray horse of the government —the other members of the cabinet have easy times compared with him Some idea of the work done at the Post Office department may be formed from the fact that there are now between six and seven thousand applications on the file for appointments

It is said that ex-Senator Westcott, of Florida, writes the greater part of the blackguardism which daily appears in the Union in respect to the new appointments of the administration — Col Warren has been selected as the target at which these vile missives have been hurled, the cause of which is explained by the correspondent of the Baltimore Sun, who is generally pretty well informed on Washington matters

'There is another reason, as I am led to believe why Mr Fitz Warren has of late been comparatively neglected by the Democratic press. The manufactory of charges got up against him in his own hundred, in Massachusetts, has bursted, for want of stock and credit

Some men there, upon the appointment of Mr Fitz Warren, demanded from him the payment of an old mercantile debt of $1,200, and threatened that if it was not paid, he would assault Mr Fitz Warren through the 'Union,' and every Democratic paper throughout the country

The demand could not be complied with, and the threat was executed The Democratic papers here rang with the denunciations of this vindictive creditor against Mr Fitz Warren '

☞ The Jeffersonian speaks of the location of an Inspector of the customs in this district at Hampden, as creating an office for the purpose of providing a place for some Whig It is a sufficient answer to such slang to say that the late Collector approves entirely of the establishment of that office at Hampden—says it is right and what he should have urged upon the government had he not himself resided at Hampden, where he was ready to attend to any duty required at that place

In addition, we would remind the Jeffersonian that there were two offices located at Frankfort, and none at Hampden, and all that has been done in the matter is to remove one of the offices from the village of Frankfort to the village of Hampden

Now it strikes us that our neighbor must be rather captious and a little hard pushed withal to manufacture a growl of disapprobation out of a transaction so perfectly proper and necessary And we cannot understand why this matter should be falsified and stated to be the creation of a new office Such treatment of a plain, simple, and open act, manifests a very determined purpose to snarl without cause and to misrepresent without scruple, and to falsify without limit If we find these things in the green tree, what may we not expect in the dry?

### Kennebec and Portland Rail Road.

The Bath Tribune says — We learn that the rails are all laid from Brunswick village to Thompson's Brook, so called, (about one mile this side of New Meadow a River) making necessary only the completion of about three miles to enable the Directors to open the road to Brunswick.

Seven physicians of Milwaukie have signed an address which occupies a column of the Daily Wisconsin, exhorting the public to adopt the homeopathic system of treatment in case they are attacked by the cholera

☞ A friend informed us yesterday that a report was in circulation about the city that we refused to publish communications, and particularly those written by Gov. Kent, in favor of the nomination of Gen Taylor for President, unless we received pay for the same — Our own judgment is that it is quite unnecessary to deny the truth of such statements, by whomsoever made, but at the request of a friend we do deny there being a word of truth in the report referred to That report is false—entirely false

☞ The Old Hunker Democrats of New York have issued an address to the electors upon the subject of State politics They call a State Convention at Syracuse, on the 5th of September They do not accept the proposition of the Barnburners, that the two Conventions should be held at the same time and place The address is not of a conciliatory character, and will be very far from producing a reconciliation between the two divisions of Democracy Three distinct parties will continue to exist in New York The attempt at conciliation by a union at the Charter election, as the reader is aware, was a signal failure

☞ We have received a catalogue of Hampden Academy, from which we learn that the whole number of pupils is 86 This is well established, well furnished and popular Academy, is now under the direction of Mr Wm M Baker who is devoted to the profession of teaching and in which he is very successful He has ample assistance in the various branches taught and possesses every means of giving clear and thorough instruction

### The Death of General Worth

The announcement of the death of Gen Worth fell upon his family, as they read it in the newspapers, with a frightful suddenness It was altogether unexpected, as he had escaped all the perils and diseases of the Mexican War it was hoped there was a lease of life for him, during the succeeding peace But the death that spared him at Monterey, and in the heart of Mexico, met him in Texas General Worth has left in this city, at school, two interesting young ladies to mourn his loss, who are almost distracted His wife is in Paterson, N J N Y Express

General Worth was born in the city of Hudson, New York, about the year 1794 On the declaration of war in 1812, he joined the army as private secretary to Major General Lewis He was with Scott at the battle of Chippewa and Niagara, where he greatly distinguished himself In the latter battle he was badly wounded As Colonel, Worth was ordered to Florida during the Seminole War, and his good conduct in that campaign led to his appointment to the rank of Brevet Brigadier General His services in the Mexican War are too recent to require enumeration Both under Taylor and Scott he served with distinguished success, showing himself, on all occasions, a brave and capable officer —Transcript

### The Oyster.

M De Quatrefages has recently ascertained that, contrary to the common opinion the sexes are separate in the oysters. ☞ The St Louis Republican contains a letter from Hon. Thomas H Benton, U S Senator from Missouri, addressed to the people of that State In this letter, which we give below Mr Benton, with the feelings of a patriot, appeals to THE PEOPLE against *the instructions* lately adopted by the Legislature, which instructions gave him the alternative of joining the "extreme South on the slavery question, or resign his seat in the Senate "

*To the People of Missouri*

The General Assembly of our State, at its late session adopted certain resolutions on the subject of slavery, and gave me instructions to obey them From this command I appeal to the people of Missouri—the whole body of the people—and if they confirm the instructions, I shall give them an opportunity to find a Senator to carry their will into effect, as I cannot do any thing to dissolve the Union, or to array one half of it against the other

I do not admit a dissolution of the Union to be a remedy, to be prescribed by statesmen, for the disease of the body politic, any more than I admit death or suicide to be a remedy to be prescribed by physicians for the disease of the natural body Cure and not kill is the only remedy which my mind can contemplate in either case

I think it probable, from what I observe that there are many citizens—good friends to the harmony and stability of the Union—who do not see the Missouri instructions and their prototype, the Calhoun address, in the same light that I see it, and in the light in which it is seen by others who heat understand it For the information of such citizens, and to let them see the next step in this movement, and where it is intended to end, I herewith subjoin a copy of the Accomac resolutions, lately adopted in that county of Virginia, and fully endorsed by the Richmond Enquirer, as to the voice of the South

I do not produce these resolutions for the purpose of arraigning them, on the contrary, I see something in them to admire, as being bold and open, and to the true interpretation and legitimate sequence of the Calhoun movement I consider the Calhoun address, and its offspring, the Missouri instructions, as fundamentally wrong, but to those who think them right the Accomac resolutions are also right, and should be immediately imitated by similar resolutions in Missouri I produce them to enable the people of Missouri to see what it is to which their legislature would commit the State what it is they have instructed me to do

I appeal from those instructions to the people of Missouri—the whole body of the people —and in due time will give my reason for doing so It is a question above party, and goes to the whole people In that point of view the Accomac resolutions present it—and present it truly, and I shall do the same I shall abide the decision of the whole people, and nothing less Respectfully,

THOMAS H BENTON

St Louis, May 9, 1849

Senator Benton left St Louis on the 10th, taking the land route, on a tour through the State of Missouri, to prosecute his appeal to the people against the pro-slavery instructions addressed to him by the last Legislature

☞ The following is a specimen of the common sense manner in which the Boston Mail treats of the subject of the money market and the necessity of promoting home industry In reply to the remark that 'money is easy, it says —

It is business that *is hard*, not money that is *easy* After struggling on through a long period of almost unparalleled monetary pressure, business has become reduced down to the absolute necessities of the country Business men, after paying out the profits of years of industry in the shape of extra interest on loans, have reduced their business to the smallest possible compass The "stringency" has only shifted from the money market to the business market Time, there has been a slight import of specie from Europe, but it has no effect, business men know that it has been imported on speculation, not as a legitimate balance of trade, and that it will go back again as soon as it has fulfilled its speculative mission In view of the present depression in business, we repeat what we have so often said, that it is only in a system of measure which will stimulate home industry, by giving the American market to the producers of American labor, that we can find relief from existing evils Put it off as we may—argue as we may—patch up any other policy that we may—to this complexion must it come at last, so surely as we desire to become a prosperous people If the experience of the three years, or nearly so, that have passed, is not sufficient to press this conviction home upon our people and their legislators, we have only to await patiently a deeper and darker experience which, how ever much to be dreaded, may yet discipline us to a better appreciation of our true policy, and a better understanding of the science of industry and trade

### Proscription Prescribed.

We wonder any decent democrat assumes to complain of removals from office, in view of their party creed, expressed in the following Pennsylvania resolutions which are the type of those passed and acted by the same party in every State of the Union —

*Resolved*, That in our opinion a democratic administration *should always surround itself with its political friends*, and as the official stations of the country are to be regarded not as "spoils" but as grave trusts of influence and power, for which the holders are responsible to the people, they should invariably be placed in the hands of the party who are responsible for their exercise, and, for that and other obvious reasons *the patronage of democratic administrations should be distributed to democrats alone*

*Resolved*, That we would respectfully call the attention of the Senate and House of Representatives of the United States, President Polk and the heads of departments to the subject, and assure them of our opinion that high considerations of policy require that *his executive patronage should not be bestowed upon our political opponents*, believing as we do that to bestow it upon them, or *suffer them to retain it*, will prejudice the interests of the party, and paralyze the efforts of the members "

We are informed that bright shining particles believed to be gold have been found on the side of a hill in the vicinity of Agamenticus. The ore has withstood the various tests applied to it, and a quantity has been sent to New York to be assayed It is said a person who recently bought the land where it was discovered, with a small shanty for $60, has been offered and refused $2000 for his purchase The rumor has caused no little sensation among the money diggers in this vicinity

### New Method for Amalgamating Zinc

This method consists in the employment of double chloride of zinc and ammonia, (the same solution which is so useful in soldering iron and steel.

The zinc to be amalgamated, is heated to about 450 F or 500 F, and the liquid spelled by a cloth or sponge and the mercury suffered to flow immediately over the surface while still moist

The union is instantaneous and complete, and the depth of the amalgamation is easily regulated by the quantity of mercury suffered to remain in contact with the zinc.

### Afflicting.

A native minstrel thus, in touching strains, alludes to a husband's rather ignorant, among a number of equally pathetic strains. It is decidedly Homeric:—

"And while retreating through the woods,
And through the tangled fern,
He tore his mouth't-mentum-'emu,
And had to put on her'n.

## NEWS

FOR THE WHIG AND COURIER.

## LATE FROM EUROPE

ARRIVAL OF THE STEAMSHIP

## CALEDONIA

AT HALIFAX.

**Great Fight between the People and Soldiery---The French Troops beaten by Roman Republicans---The Hungarians still Victorious---Protest of England and France against Russia.**

The Steamship Caledonia arrived at Halifax at 8½ o'clock P. M, on Thursday bringing one week later advices from all parts of Europe

The Caledonia brings $56,000 in specie, and 40 passengers

The commercial news presents no new features The money market continues easy, but in consequence of the threatening aspect of affairs in France and Italy, the public securities have been depressed

The market for American Flour is heavy, and 22s 6d have been accepted for considerable parcels of Western Canal Sales of Baltimore at 23s and of prime Ohio at 23s 6d

Indian Corn in improved demand, and at rather better prices early last week, but the advance was lost during the last two days, 31 to 32s for white, and 33 to 34s for yellow, with but a moderate demand

Beef moves off slowly without change

A limited business has been done in Pork, at rather lower figures

We have had a continuance of easterly winds and few arrivals, and freights have consequently, to some degree, recovered from the late depression

Passengers are less abundant but fair rates are still given for ships — From New York, dead weight 12s 6d to 15s 6d per ton—fine goods 15s to 15s 6d For Boston, dead weight, 17s 6d 22s 6d — Hardware 20s

In Dresden a frightful conflict had taken place The people fought with the troops during seven hours with great loss of life The railroads were displaced to prevent the troops arriving from Berlin, but a sufficient force of Prussians arriving, tranquility was restored The fight was renewed the next day, and continued through the day, and at the latest accounts, the contest was still continued

The French expedition to Italy received a check by the resistance of the Republicans of the Roman States in two engagements The French were driven back with great loss — Capt Audinot, a brother of a General was taken prisoner The Romans were prepared to blow up the Quirinal, the Vatican and St Peters if the French persisted in forcing themselves into the city

The Hungarians are still victorious and the safety of the Austrian Empire seems to be seriously threatened especially since it is reported that England and France have protested against the interference of Russia

### Execution of Washington Goode.

BOSTON, May 25

Washington Goode was executed at 9 o clock 50 minutes At midnight he endeavored to commit suicide by swallowing tobacco in large quantities, choking himself with his blanket, cutting both arms above and below the wrist with glass by which wounds he bled nearly half a bucket full He was so exhausted that he was obliged to be carried up the ladder and placed in a chair on the trap He neither confessed or denied and was too weak to say anything

Rev Mr Taylor addressed those in attendance, about one hundred in addition to the number required by statute At the hour of execution it rained dreadfully, notwithstanding which there was quite a crowd of outsiders in the street and on the house tops

## Maine Legislature.

AUGUSTA May 22, 1849

In the Senate the Governor's Message was referred to several committees

Several orders were passed requiring committees to inquire and report on various subjects

Quite a debate sprung up on the slavery question In the House various orders of inquiry were passed

*Petitions* — Thomas Haley et al for division of Kittery, Joseph Jewett et al to be set off from Hartland to Canaan, Caleb M Jackson and wife, for divorce, Dan'l Sanborn et al in aid of the same, N H Dillingham et al asking the State to take back lands purchased on misinformation, Samuel Bradley of New Sharon, for extension of time to redeem lands forfeited to the State

Adjourned

May 23, 1849

In the Senate —

*Order of notice*—On petition of Thomas Boyd and al for a charter to build a Bridge of Selectmen of Bluehill for a charter to build a Bridge, on petition of Job Prince and al for a charter a Railroad (reported by Mr Fox, from the committee on Railroads and Bridges,) on petition of Otis S Plummer, to be set off from Columbia to Harrington, on petition of Charles Muldram and al to be set off from Wells to Kennebunk, on petition of Colyer Show and al to be set off from Bucksport to Orrington, on petition of William Lyon and al to be set off from Plymouth to Detroit, on petition of Joseph Jewett and al to be set off from Hartland to Canaan, on petition of Benja Mitchell and al to be set off from Sebago to Naples, on petition of Thomas Haley and al that the town of Kittery may be divided, (severally reported by Mr Clark, from the Committee on Division of Towns)

In the House, inquiry was ordered, relative to amending chapter 12th of the Revised Statutes so that the certificate of the Register of Deeds shall be *prima facie* evidence of publication of foreclosure of mortgage, and for other purposes

*Petitions* — Town of Limington for remuneration of expenses incurred in the care of an Indian pauper, Otis Roberts for division of the town of Sedgwick, town of Lincolnville favor of winter sessions, Newell Neptune et al for increase of appropriation for the purpose of purchasing seeds for the use of the Passamaquoddy Indians

Several matters were passed upon in concurrence Adjourned

### Gold in Africa.

According to St Petersburg papers, Col Kavelooski, Director of the Mines of Siberia, at present engaged in a Mineralogical exploration of the interior of Africa, has found on the right bank of the Somat, a day's journey from Cassen, several large hills of auriferous sand, the washing of which is more productive than that of those of Siberia. Stimulated by this discovery, he pursued his examinations, and discovered similar tracks on the banks of the Rasala, the Dys the Goucka, the Beniesh-Angel, and the Gamauil It is stated that the Colonel was about to transport miners and gold washers from Russia, to experiment in this field of his discovery on a large scale.

### Vesuvius.

In January last Vesuvius was singularly active, and two large streams of lava issued forth, taking the direction of Boscotrecase and Ottaiajano After causing much fear and injury, the lava closely but near too last of the month another stream burst out, down the east side, and threatened the villa of Prince Ottaiajano

PATENTS

AMERICAN AND FOREIGN OFFICE.

And Agency of the U S Patent Office, Washington,

22 State Street—Boston.

THE subscriber by appointment from the Commissioner of Patents is Agent of the U S Patent Office for receiving and forwarding to the same models specimens or manufactures to be patented, or deposited therein, which will be sent *free of expense and risk* and with despatch He will prepare Caveats Specifications Assignments, and all the necessary Papers and Drawings for Patents, will make researches into American and Foreign works to test the validity of inventions and render advice on legal and scientific matters respecting the same Patents secured in Europe and other countries

By application at this office, inventors are saved the time and expense of a journey to Washington and delay there as well as all personal trouble in obtaining their patents. They also have the advantage of *verbally* explaining their inventions, and of consulting in respect to them, *matters, in general, of paramount importance in order to obtain correct specifications and claims* The experience of *sixteen year's* practice, an extensive collection of rare works, decisions, &c. on mechanical subjects the Patent Laws, and patents of different countries, collected at much expense during the long time this office has been established, together with accounts here kept of inventions patented at Washington, enable the subscriber to afford to inventors, desirous of procuring Patents, assistance and information which in other respects might be difficult of attainment.

McKENNEY'S

COSSACK SALVE!!

An invaluable Remedy

FOR Fever Sores Rheumatism, Swelling of the Feet and Limbs Swelling of the Throat or Sore Throat, Chronic Eruptions of the Skin, and all Scrofulous Diseases, Rigid Cords occasioned by Colds or Strains, Stiff Neck, Chilblains or Chapped hands, Sore or Inflamed Breast, Weakness or Pains in the Stomach, Piles, Corns, Warts, and Common Sores and Cuts and Bruises of all kinds

In bringing this article before the Public, we are aware that we labor under no small disadvantage amidst the multitude of "All-Healing Ointments" and Panaceas that are now advertised as the *"most effectual"* and *certain cures"* for all diseases indiscriminately, to which man or animals are subject

A history of this Salve, and the wonderful cures it has effected in the above complaints, will be found in a pamphlet accompanying each Box—a reference to which is invited before purchasing

We would only add that we have undertaken the task of manufacturing the above named Salve at no inconsiderable trouble and expense, not so much as a matter of speculation and pecuniary benefit as in compliance with the earnest and repeated solicitations of personal friends, and those who have experienced its wonderful medicinal and all-healing properties

To say, indeed, that we do not expect to realize a handsome remuneration for our services, would be alike useless and untrue But we flatter ourselves that if, forsooth, we are richly paid, and the article soon, very soon has an extensive sale—the Public are receiving a full and ample equivalent

As we have already intimated we do not and shall not call to our aid the empty *puffing of the Press*, or the bought certificates of individuals, and shall make use of them only so far as they have been or hereafter may be, entirely *voluntary and unsolicited*

The Salve is now before the Public!

They, and they alone, will decide upon its real virtues and medicinal properties To say less were injustice to ourselves—to say more would be superfluous

Here are some of the many Certificates—

The subscriber was afflicted with a Fever Sore upon his leg for about six years, and in the winter of 1845 it commenced swelling from the ankle to the knee After using many remedies without success I applied some Salve obtained of Mr McKenney, and continued its application until I had used six bottle which entirely cured me and I have had no return of the disease since I would also say that I know the above Salve to be a cure for Corns, one of my family having used it for this purpose with complete success

DANIEL SLAVEY

Dexter (Maine) May, 1846

This certifies that one of my sons having been afflicted with a fever Sore for more than a year and having tried various means to effect a cure without success which cost me about forty dollars I bought 1 bx of Joseph McKenney's Salve which effected an entire cure in less than two months

SIMEON MARSTON

Gray May 11 1846

Mr McKenney—In going into the woods in the autumn of 1845 with the charge of gun to number of men for the winter lumbering operation, I was induced to take a few bottles of your Salve, it having been recommended to me as one of the best remedies for accidental Cuts and bruises, and I found indeed to my great satisfaction that it was an invaluable article I lent out application of it in cases of Cuts Sprains and Bruises, upon my cattle and found it equally Beneficial It can truly be called the All Healing Salve

THE FORGERY A Tale by G P R JONES. Just received and for sale by

GEO R SMITH & CO

THE ORIGINAL AND ONLY

CAUTION EXTRA.

A man by the name of CLAPP has engaged with a young man of the name of S P Townsend, and now his name is put up in Sarsaparilla, which they call Dr. Townsend's Sarsaparilla, denominating it *GENUINE* Original, etc. This Townsend is no doctor, and never was; but was formerly a worker on railroads, canals, and the like. Yet he assumes the title of Dr., for the purpose of gaining credit for what he is not This is to caution the public not to be deceived, and purchase none but the *GENUINE ORIGINAL OLD* Dr Jacob Townsend's Sarsaparilla, having on it the Old Dr's likeness, his family coat of arms and his signature across the coat of arms

*Principal Office, 102 Nassau st. New York City*

DR. JACOB TOWNSEND

THE ORIGINAL DISCOVERER OF THE

Genuine Towsend Sarsaparilla.

Old Dr Townsend is now about 70 years of age and has long been known as the *AUTHOR and DISCOVERER of the GENUINE ORIGINAL TOWNSEND SARSAPARILLA* Being poor he was compelled to make his invaluable secret by which means it has been kept out of market, and the sale circumscribed to those only who had proved its worth and known its value It had reached the ears of many nevertheless but those persons who had been benefited or some old friends and saved from death probe and its excellence and wonderful

HEALING POWER

Knowing many years ago that he had by his skill science and experience divested an article which would be of incalculable advantage to mankind when the means would be furnished to bring it into universal notice when its virtues would be known and appreciated This time has come the means are supplied the

*GENUINE UNEQUALLED PREPARATION* is manufactured on the largest scale and is sold throughout the length and breadth of the land especially as it is found incapable of degeneration or deterioration

Unlike young S P Townsend's it never was with age, and never changes but for the better because it is prepared *on scientific principles* by a *scientific man* The highest knowledge of chemistry and the latest discoveries of the art have all been brought to bear in the manufacture of the Old Doctor's Sarsaparilla and it is well known to medical men that many medicinal properties and some properties which are incompatible and others which if combined in preparing it for use, *produce, force it to and and* which is injurious to the system The properties of Sarsaparilla are so rare that they only exist in a few plants and are lost in the process of preparing it by *scientific process* Also in only its special experience in its manufacture Moreover these and *the principles* which it contains are so in an combination under heat are the very *essential medicinal properties* of the root which give it its value

Any person can boil or steep the root in water and obtain a coloured liquid which is so far from being a medicine that it is not any thing else, they can then strain this liquid or sweet it with sugar, molasses and call it SARSAPARILLA EXTRACT or SYRUP But such a medicine is not in use

GENUINE OLD DR JACOB TOWNSEND'S SARSAPARILLA

This is so prepared that all its properties are retained Bottles that are not remarkably strong are liable to become of no consequence, or perhaps worse, if not entirely spoiled, and the contents of such bottles are lost to the purchaser, and the invaluable properties of the medicine are entirely lost Prepared in this way it is made the most powerful agent in the

Cure of innumerable diseases.

Hence the reason why we hear recommendations on every side in its favor by men, women and children We find it is a certain cure in the case of

CONSUMPTION DYSPEPSIA and LIVER COMPLAINT and in RHEUMATISM SCROFULA PILES COSTIVENESS all CHRONIC AFFECTIONS ERUPTIVE DISEASES BLOTCHES and all affections of the skin

IMPURITY OF THE BLOOD

It possesses a marvellous efficacy in all complaints arising from *Indigestion* from *Debility of the Stomach* it is unequal in its influence on the constitution it allows to the healthful action of the heart, cold feet and hands Cold sweats and flushes over the body It has not its equal in *Colds and Coughs* and promotes easy expectoration and gentle perspiration relieving a tightness of the lungs

FEMALE COMPLAINTS

It works wonders in cases of *Fever Ague* or *Bilious Fever* and in *Hard Cases of Suppressed or Painful Menses* irregularity of the menses and in all the ills to which so difficult in curing all the forms of *Female Disease*

By regulating obstructions and regulating the general system it gives vigor and strength to the whole body and thus effects all forms of

Nervous diseases and debility

and thus prevents or relieves a great variety of other maladies as *Spinal Irritation Neuralgia St Vitus' Dance Sick Headache Epileptic Fits Convulsions &c*

Hence upon the bowels it exerts the direct healthy action tones the stomach and liver and digestion is improved, it purifies the blood and consequently relates to the skin and purifies the skin equals as the circulation of the blood producing a healthy action equally over the body and the invigorated perspiration carries off all noxious and sickly matter and obstructions and restores the nervous system. Is not this the

The medicine you pre-eminently need?

But as in all other things there is a great difference between the

COMPARED WITH THE OLD DRS

because for the OLD DRS the one is INCAPABLE OF

NEVER SPOILS,

while the other DOES *souring, fermenting, and blowing the bottles* or rather bursting fragments the sour and liquid squabbling and damaging other goods Must not this burning compound be poisonous to the system? *What! put acid into a system already diseased with acid!* What causes Dyspepsia but acid? Do we not all know that when food sours in our stomachs what mischiefs it produces? Heartburn, heartburn, palpitation of the heart liver complaint diarrhoea dysentery and all the corruption of the blood? What is Scrofula but an acid humour in the body? What produces all the humors which bring on Impetigo of the Skin Scald Head Salt Rheum Erysipelas White Swellings, Fever Sores, and all ulcerations internal and external? It is nothing under heaven but an acid substance, which sours, and then spoils all the fluids of the body, more or less What causes Rheumatism but a sour or acid fluid which insinuates itself between the joints and elsewhere irritating and inflaming the delicate tissues upon which it acts? So of nervous diseases, of impurity of the blood, of deranged circulations, and nearly all the ailments which afflict human nature

Now it is not horrible to make and sell, and *infinitely worse* to use this

SOURING, FERMENTING, ACID "COMPOUND" OF S. P. TOWNSEND,

and yet he would fain have it understood that Old Dr. Jacob Townsend's Sarsaparilla is the *genuine Sarsaparilla*, an IMITATION of his inferior production?

Then we forbid that we should deal in an article which would bear the most distinct resemblance to S P Townsend's article and which should bring down upon the Old Dr such a mountain load of contributed calumnies from Agents who have sold, and purchasers who have used S P Townsend's FERMENTING COMPOUND

We wish it understood because it is the *absolute truth*, that S P Townsend's article and Old Dr. Jacob Townsend's Sarsaparilla are *known wide apart, and infinitely dissimilar* that they are so in every particular having not one single thing in common

As S P Townsend is no doctor, and never was, is no chemist no pharmacentist—knows no more of medicine or disease than any other common man, is a mere speculative man, what *guarantee* can the public have that they are receiving a genuine scientific medicine containing all the virtues of the articles used in preparing it, and which are incapable of changes which might impair the virtues of the AGENTS of Disease instead of health.

But what disease should be expected from one who knows nothing comparatively of medicine or disease? It requires a person of some experience to compound even a common decoction Bow much more tender and nice is the person who manufactures medicine designed for

WEAK STOMACHS AND EXPERIENCED INVALIDS

should know well the medicinal properties of plants, the most manner of seeking and compounding their healing virtues, with an extensive knowledge of the various diseases which affect the human system, and how to adapt remedies to these diseases?

It is to arrest frauds upon the distributed to prevent belief into wounded humanity an kindly hope in the despairing bosom, to restore health and blooom, and vigor into the crushed and broken, and to banish infirmity that OLD DR. JACOB TOWNSEND has SOUGHT and FOUND the opportunity and means to bring his

Grand Universal Concentrated Remedy

within the reach, and to the knowledge of all who need it, that they may learn and know, by joyful experience, its

Transcendent Power to Heal.

GENUINE INDIAN MEDICINE

It is not our wish to trifle with the health of the community We desire to be governed by a sacred regard to truth in whatever is here stated in relation to this extraordinary medicine, and it is this feeling of sincerity and good faith which prompts us again and again to call attention to it We believe that no article has ever been discovered that has conferred a greater amount of benefit on the community, and the more it is known the better it is appreciated

SAVE YOUR DOCTOR'S BILLS

Thousands of dollars of doctor's bills have been saved by the use of this medicine, and there is little doubt that if it were more generally resorted to than it is, sickness would in most cases be prevented

New York, April 17, 1848

This is to certify that I have used Wright's Indian Vegetable Pills in my family for more than four years, and as a family medicine believe them the best in the world During that period I have had no occasion for a physician though my children and wife have been very low several times WILSON TREADWELL

NERVOUS DEBILITY—LOSS OF ENERGY

Wright's Indian Vegetable Pills speedily and permanently restore the declining powers of the human body Persons at first be doubted but no fact is better established Those who use it recommend it as a medicine for their purpose everywhere to their friends as a medicine far easier to take and more effectual

Clinton Cattaraugus Co N Y Oct 5 1848

Dr Wm Wright—Sir—For the last three or four years I had been gradually running down and finally became so weak that I was unable to perform any kind of labor I was advised to try your Indian Vegetable Pills and I am gratified to state that by the use of four boxes I began to feel like myself again, and am now thoroughly cured

From my own experience I can commend your Pills to the afflicted with confidence that they will be found a medicine of great efficacy and value Yours truly,

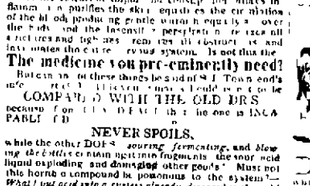
IMPORTANT TO OWNERS OF HORSES AND CATTLE



FOLLOWS CELEBRATED HEAVE CURE AND UNIVERSAL CONDITION MEDICINE which has now been used with such complete success in England for the last twenty years—it now has been in the last three years performing the most wonderful cures ever on record in this country—it is now totally unrivalled in Horses and Cattle

*In Horses*—Heaves Chronic Cough Inflammation Colds, Affections of the Brain Bad Blood Bad Rheum Erysipelas White Swellings, Fever Sores, and all ulcerations internal and external It is nothing under heaven but an acid substance, which sours, and then spoils all the fluids of the body, more or less What causes Rheumatism but a sour or acid fluid which insinuates itself between the joints and elsewhere irritating and inflaming the delicate tissues upon which it acts? So of nervous diseases, of impurity of the blood, of deranged circulations, and nearly all the ailments which afflict human nature

Now it is not horrible to make and sell, and *infinitely worse* to use this

SOURING, FERMENTING, ACID "COMPOUND" OF S. P. TOWNSEND,

and yet he would fain have it understood that Old Dr. Jacob Townsend's Sarsaparilla is the *genuine Sarsaparilla*, an IMITATION of his inferior production?

Then we forbid that we should deal in an article which would bear the most distinct resemblance to S P Townsend's article and which should bring down upon the Old Dr such a mountain load of contributed calumnies from Agents who have sold, and purchasers who have used S P Townsend's FERMENTING COMPOUND

We wish it understood because it is the *absolute truth*, that S P Townsend's article and Old Dr. Jacob Townsend's Sarsaparilla are *known wide apart, and infinitely dissimilar* that they are so in every particular having not one single thing in common

As S P Townsend is no doctor, and never was, is no chemist no pharmacentist—knows no more of medicine or disease than any other common man, is a mere speculative man, what *guarantee* can the public have that they are receiving a genuine scientific medicine containing all the virtues of the articles used in preparing it, and which are incapable of changes which might impair the virtues of the AGENTS of Disease instead of health.

But what disease should be expected from one who knows nothing comparatively of medicine or disease? It requires a person of some experience to compound even a common decoction Bow much more tender and nice is the person who manufactures medicine designed for

WEAK STOMACHS AND EXPERIENCED INVALIDS

should know well the medicinal properties of plants, the most manner of seeking and compounding their healing virtues, with an extensive knowledge of the various diseases which affect the human system, and how to adapt remedies to these diseases?

It is to arrest frauds upon the distributed to prevent belief into wounded humanity an kindly hope in the despairing bosom, to restore health and blooom, and vigor into the crushed and broken, and to banish infirmity that OLD DR. JACOB TOWNSEND has SOUGHT and FOUND the opportunity and means to bring his

Grand Universal Concentrated Remedy

within the reach, and to the knowledge of all who need it, that they may learn and know, by joyful experience, its

Transcendent Power to Heal.
